¹ as determined by LEAs

---

**Core Competencies:** Essential knowledge and skills required for effective performance as an instructional paraeducator. Core Competencies are based on Every Student Succeeds Act (ESSA) 12/2015 & and state-approved Special Education Standards (05/85).

**Supporting Competencies:** Additional knowledge and skills demonstrated by paraeducators while on the job. Some supporting competencies may only be required for specific roles (e.g., personal assistants, job coaches, computer lab aides). Training programs both at an LEA or university/community college/applied technology college should address such role distinctions and skill needs.

* supervisor refers to supervising licensed or certificated personnel.
** instructional team refers to those individuals who have day-to-day responsibility for providing education and other direct services to children/youth and their families. Instructional teams are found in general and special education settings, Title I, multilingual/EL, after school, early childhood, and school-to-work preparation programs, including traditional and charter schools.
